Logbook of corrections
for manuscript-draft-29-04-2019

Miguel Xochicale

September 5, 2019

Abstract

This is a log book document for the corrections of *.../corrections/29-04-2019/comments/scanned-draft.pdf*.

1 Title and authors

1. (pp. 1) ⌐∧

   ```
   \title{The Application of Recurrent Quantification Analysis
   to Human-Humanoid Interaction}

   Chris Baber
   ```

   SORTED: Mon Apr 1 17:26:42 BST 2019

2 Abstract

1. (pp. 1) ⌐∧ Not a conclusion just an observation

   ```
   Then with the use of RQA metrics, we find out that the type of
   movements and the level of smoothness affects those metrics.
   Specifically, entropy values from RQA were well distributed and
   presented variation in all the conditions for time series.
   This work have then the potential to enhance the development of
   better diagnostic tools for various applications in rehabilitation,
   sport science or for new forms of human-robot interaction.
   ```

SORTED: Mon Apr 1 17:44:55 BST 2019

3 Introduction

1. (pp. 1) _∧

   ```
   added recommendations
   ```

   SORTED: Wed Apr 3 18:08:38 BST 2019

4 Results

1. (pp. 1) _∧

   ```
   recommendations were added
   (i.e. types of signals were moved to methods section)
   ```

   SORTED: Wed Apr 3 18:40:38 BST 2019

5 Discussion

1. (pp. 1) _∧

   ```
    added recommendations
   ```

   SORTED: Thu Apr 4 12:46:47 BST 2019

6 Conclusions and Future Work

1. (pp. 1) _∧

   ```
   Recommendations with the use of English language were added
   ```

   SORTED: Tue 3 Sep 07:15:23 BST 2019

   ```
   You need a sentence or two here
   to explain why this is claimed.
   ```

   SORTED:

7 Methods

1. (pp. 1) _∧

   ```
   Corrections with the use of English
   ```

   SORTED: Tue 3 Sep 07:26:41 BST 2019

8 Experiment

1. (pp.) _∧

   ```
   Needs a statment of ethics
   Section of Ethics has been added. However I am not sure
   if an Appendix should be added for further informotation.
   ```
